

Corporate Governance Statement 2024

Ramsay Health Care Limited
ACN 001 288 768

Ramsay
Health Care

Message from the Chair

Following the Annual General Meeting in November 2023, I was pleased to succeed Michael Siddle as Chair of Ramsay Health Care. On behalf of the Non-Executive Directors, I thank Michael for his leadership and significant contribution over many years. I am committed to lead Ramsay during this time of significant change for the healthcare sector and within our business, as we strive to leverage Ramsay's global platform and become a leading healthcare provider for the future.

Across Ramsay, we are dedicated to upholding the highest standards of corporate governance and to reinforcing the culture and principles of The Ramsay Way throughout our business. The Board continually reviews our governance policies and practices to ensure they remain aligned with developments in corporate governance, regulatory expectations and market standards. Highlights from the 2024 financial year include:

- **Appointing a Non-Executive Director** - Helen Kurincic joined the Board and Audit Committee as a Non-Executive Director from 1 March 2024. She has extensive experience in Australian healthcare organisations and will stand for election at the 2024 AGM. More details about her background are provided in the Annual Report.
- **Updating our Charters and policies** – During FY24, Ramsay updated its Board and Committee Charters to align with the latest market and company practices. Updates to our Global Anti-Bribery and Corruption Policy, Global Sustainability Policy and Human Rights & Labour Policy were also approved. These policies reinforce our commitment to upholding universal human and labour rights.
- **Reviewing our Committee structure** – We also reviewed our Board Committee structure and operations with a focus on risk management and clinical excellence. We strengthened our focus on the management of clinical risk, as a part of the Risk Committee, as we maintain our commitment to delivering the best clinical care. Details of the Board Committees and membership changes are outlined in this Corporate Governance Statement.
- **Engaging with our people** – The Board welcomed opportunities to meet Ramsay employees across our operations this year. Connecting with our people provides invaluable insight into how The Ramsay Way values are being brought to life and shaping our patient care.

I am grateful to my fellow Directors, Craig and the entire Ramsay team for their unwavering dedication in delivering the Board's FY24 agenda. Our transformation program has made significant progress, already bringing tangible benefits to our people, patients and partners. As we celebrate our 60th anniversary, Paul Ramsay's enduring ethos of "people caring for people" continues to be the cornerstone of our culture and achievements and inspires us to continue investing in a healthier future.

David Thodey AO

Chair

About this Corporate Governance Statement

This Corporate Governance Statement describes Ramsay Health Care Limited's (**Ramsay** or the **Company**) corporate governance framework and its governance practices for the financial year ended 30 June 2024 (the **Reporting Period** or **FY24**). These arrangements are consistent with the 4th edition of the ASX Corporate Governance Council's Corporate Governance Principles and Recommendations (**Recommendations**), unless otherwise indicated below.

Further information about Ramsay's corporate governance framework and practices can be accessed on our website (<https://www.ramsayhealth.com/en/about/corporate-governance/>), which include links to each of the documents referenced in this Corporate Governance Statement.

This Statement is current as at 28 August 2024 and has been approved by the Board.

1. Corporate Governance

We are committed to delivering high quality health care services, long-term sustainable growth and shareholder returns. The Board recognises the importance of good governance in achieving these corporate objectives, in discharging its responsibility to the Company and endeavouring to meet the expectations of all stakeholders and in executing the broader role of Ramsay as a good corporate citizen.

Our governance framework is designed to ensure that we are effectively managed, that legal and regulatory obligations are met and that the culture of personal and corporate integrity – *the Ramsay Way* – is reinforced.

The Ramsay Way

People are at the heart of our success. As ‘people caring for people’ there are three key ways we approach our work every day.

We value strong relationships

Healthy working relationships lead to positive outcomes for all.

We look out for the people we work with and we respect and recognise them.

Strong healthy relationships are the foundation of our stakeholder loyalty.

We aim to constantly improve

We do things the right way.

We enjoy our work and take pride in our achievements.

We are not afraid to challenge the status quo to find better ways.

We seek to grow sustainably

Maintaining sustainable levels of profitability are only part of our success.

We prioritise long term success over short term financial gains because we care about our people, our community and our planet.

We remain committed to maintaining these principles across all aspects of our business, honouring the architect of *The Ramsay Way*, the late Mr Paul Ramsay AO.

Our values can be found on our website at www.ramsayhealth.com/About-Us/Values

Ethical and responsible behaviour – aspects of the *Ramsay Way*

Code of Conduct

Our Code of Conduct is a statement on the shared values of our organisation and how we conduct ourselves and our business. During the Reporting Period, the Board approved our new Code. The Code sets out very clear expectations and understandings to ensure we all know the right way to behave, respond, take action and do our work. It is everybody's responsibility to set the highest standards for themselves, to monitor their own behaviour, and to notify the appropriate person if the conduct of others is not aligned with the Code. The Risk Management Committee (**RMC**) is informed of any material breaches of the Code of Conduct.

respect for others	professionalism & diligence	health & safety
ethics & integrity	Principles of the Code	commitment to child safety
privacy & compliance with the law	sustainability, society & the environment	communication & transparency

View the Code on the Governance section of our website <https://www.ramsayhealth.com/en/about/corporate-governance/>

Global Anti-Bribery and Corruption Policy

Rejecting bribery and corrupt behaviour benefits the Ramsay business as a whole by protecting Ramsay's reputation and maintaining the confidence of people and organisations with whom it conducts business. The objective of our Global Anti-Bribery and Corruption Policy is to make available information to Ramsay employees and associates regarding our legal responsibilities and position on bribery and corruption, and to establish procedures and protocols designed to assist compliance with the Policy.

The RMC is informed of any material breaches of the Global Anti-Bribery & Corruption Policy.

View this Policy the Governance section of our website <https://www.ramsayhealth.com/en/about/corporate-governance/>

Whistleblower Policy

The Board and management encourage the reporting of any behaviour, conduct or affairs that are inconsistent with Ramsay's expected standards of conduct and behaviour. The purpose of the Whistleblower Policy is to promote a workplace environment in which everyone feels safe, supported and encouraged to report improper conduct, explain how to make a report and outline the protections available for those who make a report.

The RMC is informed of any material incidents reported under the Whistleblower Policy.

Securities Trading Policy

The Securities Trading Policy seeks to ensure that public confidence is maintained in the reputation of Ramsay and its related bodies corporate, our directors and employees in the trading of Ramsay securities, explains our policy and procedures for buying and selling securities and recognises that some types of dealing in securities are prohibited by law.

Human rights and modern slavery reporting

Our Human Rights & Labour Policy applies to all of Ramsay's businesses worldwide and sets out (among other things) our commitment to operate in accordance with all key universal human and labour rights across our regions globally. This Global Policy sets out the steps that must be taken by our regional businesses to uphold this commitment. Ramsay also releases a modern slavery statement annually, which addresses both the reporting requirements under the UK *Modern Slavery Act 2015* (UK) and the Australian *Modern Slavery Act 2018* (Cth).

Ramsay has also adopted a supplier sustainability assessment approach and has developed a global responsible sourcing framework including a Global Responsible Sourcing Policy which outlines Ramsay's commitment to responsible sourcing practices and sets out the behaviour and standards that we expect all our suppliers to uphold.

Global Sustainability Policy

As a global group, employing over 90,000 people and caring for millions of patients each year, we recognise our responsibility to maintain the highest standards of quality, safety and sustainability. The *Ramsay Way* philosophy: 'people caring for people' is the foundation of how we operate, and our people are central to this.

The Global Sustainability Policy outlines our commitment to be a sustainable and responsible business. The objective of the Policy is to improve or maintain social and environmental value drivers that can impact our long-term value creation and reputation. This is articulated through our 'Ramsay Cares' Strategy which aims to deliver stronger communities, healthier people and a thriving planet across three sustainability pillars and is set out below.

Caring for our people

Ramsay Health Care recognises people are at the heart of our business from our people, our doctors and partners, our patients and the community. We are committed to ensuring the legacy of 'people caring for people' remains at the centre of everything we do. In line with The Ramsay Way, we are focused on fostering a caring and inclusive culture, a high level of engagement, and support on key areas such as high-quality patient outcomes and experience, development and training, safety, wellbeing and importantly mental health.

Caring for our planet

Ramsay Health Care recognises that conserving and protecting the environment for future generations is a critical issue. We are committed to working toward the delivery of environmentally sustainable outcomes and achieving continual improvement in performance. We are focused on the key challenges of climate change, reducing greenhouse gas emissions, reducing energy and water use, reducing resource use such as single-use plastics where it is safe to do so, increasing recycling and promoting sustainable development and procurement outcomes.

Caring for our communities

Ramsay Health Care recognises that we have an important role to play in the local communities we serve and society at large. Our focus on health care provides us the opportunity to commit significant resources to medical research, clinical teaching and training. We are focused on a global approach towards health care prevention and supporting local communities.

Ramsay Health Care's Impact Report

Ramsay publishes an Impact Report annually, which contains information about the way we operate. This report covers our material sustainability issues that could influence the value Ramsay creates for our stakeholders over the short, medium and long-term.

The Impact Report provides an overview of the performance of our operations in Australia, Continental Europe and the United Kingdom. The report is prepared in accordance with the Global Reporting Initiative (GRI) Standards: Core option and is informed by the Sustainability Accounting Standards Board (SASB) health care sector guidance.

Our governance framework

Ramsay and its Board of directors are committed to delivering high quality health care services, long term sustainable growth and shareholder returns. The Board recognises the importance of good governance in achieving these corporate objectives, in discharging its responsibility to the Company and endeavouring to meet the expectations of all stakeholders and in executing the broader role of the Company as a good corporate citizen. Our governance framework is set out below and is designed to promote and foster accountability, both of the Board and senior executives, to the Company and its shareholders.

The role of the Board

The Board has adopted a Board Charter which includes an overview of Board composition and process, and the relationship and interaction between the Board, Board Committees and management. While the Board retains ultimate responsibility for the strategy and performance of the Company, the day-to-day operation of the Company is conducted by, or under the supervision of, the CEO, as directed by the Board.

The Board Charter and the charters adopted by the Board for its standing Committees have been prepared and adopted on the basis that strong corporate governance contributes to the performance of the Group, creates shareholder value and engenders the confidence of the investment market.

Company Secretary

Henrietta Rowe was the Group General Counsel and Company Secretary throughout the Reporting Period.

Ms Rowe was appointed Group General Counsel & Company Secretary on 25 June 2019 and is responsible for the Group legal, governance and secretariat functions.

Ms Rowe has more than 15 years' experience with leading global law firm, Herbert Smith Freehills, and in-house at the Commonwealth Bank of Australia, specialising in mergers and acquisitions, capital management and corporate governance. She also holds a Bachelor of Economics (Social Sciences) (Honours) and a Bachelor of Laws (Honours) from the University of Sydney, is a Fellow of the Governance Institute of Australia and a member of the Australian Institute of Company Directors Law Committee.

The Company Secretary is appointed by the Board and is directly accountable to the Board, through the Chair, in relation to all matters relating to the proper functioning of the Board. All directors have direct access to the Company Secretary. The role of Company Secretary is set out in more detail in the Company's Board Charter.

Board composition and skills matrix

The Nomination and Governance Committee is responsible for reviewing and making recommendations to the Board on its membership, including recommendations on the size and composition of the Board, Board succession plans and the succession of the Chair. The Nomination and Governance Committee has regard to the Board skills matrix and the objective that the Board comprise directors with a broad range of skills, expertise and experience from a broad range of backgrounds, including gender.

Ramsay aims to maintain a Board that comprises directors who are able to understand effectively and manage the issues arising in the Company's business, review and challenge the performance of management and optimise the Company's performance. The Nomination and Governance Committee annually assesses the composition of the Board according to its Board Skills Matrix.

The following table sets out the various skills/experience that comprise our Board Skills Matrix by describing each relevant skill/experience and the number of directors that have at least a solid amount of experience in respect of that skill or experience (noting that there are currently nine directors in total, including the CEO).

Director independence

The Board considers that it is able to exercise its judgement in an independent and unfettered manner, provide independent and effective oversight of management and is highly effective in promoting the interests of shareholders as a whole.

The Board determines the independence status of each director on an annual basis. In doing so, the Board considers the matters described in Box 2.3 of the Recommendations. The Board only considers a Director to be independent where he or she is free of any interest, position, or relationship that might influence, or might reasonably be perceived to influence, in a material respect his or her capacity to bring independent judgment to bear on issues before the Board and to act in the best interests of the Group as a whole rather than in the interests of an individual shareholder or other party.

At the date of this Statement, Paul Ramsay Holdings Pty Limited (**PRH**), which is a subsidiary of Paul Ramsay Foundation Limited (**PRF**), is the Company's largest shareholder. Mr Siddle (Non-Executive director) is a director of PRH and PRF. Mr Siddle is also a director of the subsidiaries and related entities of PRH.

During 2024, the Board undertook the annual review of each director's independence. Given Mr Siddle's role as a director of PRF and PRH and given his tenure on the Board, the Board determined that Mr Siddle is not considered an independent director under the Recommendations. Notwithstanding this decision, the Board considers that Mr Siddle adds significant value to the Board's deliberations given his considerable industry experience and expertise, as well as the corporate knowledge he brings to Board deliberations.

In the case of Mr David Thodey AO, Dr Claudia Süßmuth Dyckerhoff, Ms Alison Deans, Ms Helen Kurincic, Mr James McMurdo, Ms Karen Penrose, and Mr Steven Sargent, the Board does not consider there to be any relationships that could materially interfere with or could reasonably be perceived to materially interfere with their ability to exercise unfettered and independent judgement in the discharge of their responsibilities and duties.

The Managing Director & CEO, Mr Craig McNally, is not considered to be an independent director as he is a current executive of the Company.

As a result of this determination, the Board comprised a majority of independent Non-Executive directors throughout the Reporting Period.

The Board of the Company was not chaired by an independent Chair for the full Reporting Period, as is recommended under the Recommendations. Mr Siddle, who is not considered to be an independent director, was Chair of the Company until its 2024 Annual General Meeting on 28 November 2023. During this period, Mr David Thodey AO continued to serve as lead independent director and the Board was satisfied that it continued to operate independently of management and was, and continues to be, effective in promoting the best interests of shareholders as a whole. Effective 29 November 2023, Mr David Thodey AO, who is considered to be an independent director, has been the Chair of the Company.

Lead independent director

To enhance the independent functioning of the Board while it does not have an independent Chair, in FY20 the Board resolved to appoint Mr David Thodey AO as Lead Independent director. From this time and until his appointment as Chair, effective 29 November 2023, Mr Thodey AO served as the Lead Independent Director. The key functions of the Lead Independent director are to:

- ensure that any conflicts of interest (or potential conflicts of interest) between the Company's major shareholder and the Company are identified and appropriately managed;
- promote awareness of the importance of independent judgements in the Board's decision-making;
- provide leadership to the other independent Non-Executive directors and support them in presenting diverse perspectives on issues being considered by the Board; and
- promote constructive interaction between the independent Non-Executive directors and all other directors.

Access to independent advice

Directors are entitled to seek independent professional advice at the expense of the Company as required in the furtherance of their duties and in relation to their functions (including their Board Committee functions), subject to prior consultation with, and approval of the Chair.

Appointment, induction and training

The Company has written agreements with each of its Non-Executive directors setting out the terms of their appointment.

The Nomination and Governance Committee ensures that appropriate background checks are carried out prior to the Board appointing a new director or putting to shareholders a candidate for election. Shareholders are provided with all material information in the Company's possession that is relevant to a decision on whether or not to elect or re-elect a director, most relevantly through the Notice of Meeting and Annual Report.

The Nomination and Governance Committee is also responsible for implementing an effective induction process for new directors and reviewing its effectiveness. New directors are required to attend and complete a structured director induction program, which includes site visits to Ramsay's hospitals and meetings with key executives. In addition, directors are provided with ongoing professional development and training to enable them to develop and maintain their skills and knowledge. The Nomination and Governance Committee reviews processes that are in place to support director induction and ongoing education.

Performance reviews and evaluation

The Board undertakes a review of the performance and effectiveness of the Board, its committees and individual directors. Periodically, and in accordance with good governance practice, the Board engages an external consultant to undertake independent evaluations of the Board, the directors and the Board Committees with the objective of assessing risk and looking to areas in which the Board could strengthen and enhance its performance.

An internal Board effectiveness review was conducted in FY24 to assess the performance of the Board as a whole, its committees and individual directors. The results of the review were discussed by the whole Board as well as the Global Executive, and initiatives to improve or enhance Board performance and effectiveness were considered and recommended.

3. Board committees

The Board has established four committees and has delegated to each committee duties to assist the Board in exercising its responsibilities and discharging its duties.

Each committee has a separate charter that sets out the roles and responsibilities of that committee, as well as the membership and any other requirements for the running of the committee. Each committee will regularly report to the Board on all matters relevant to the committee's roles and responsibilities.

View the Committee Charters on the Governance section of our website
<https://www.ramsayhealth.com/en/about/corporate-governance/>

The members of each committee are set out below.

Board Committee	Composition requirements	Membership for period 1 July 2023 – 30 June 2024

The number of scheduled Board and committee meetings held during FY24 and the number of meetings attended by each of the directors in office during this period is set out on page 72 of the Annual Report.

4. Senior executives

**The Group Chief Risk Officer, in his role as internal auditor, has a direct reporting line to the Audit Committee, through the Audit Committee Chair.*

***The role of Company Secretary is directly accountable to the Board, through the Chair.*

**** Prof. Sir Edward Byrne was a member of the Senior Executive team for the full FY24 period. He resigned from Ramsay Health Care effective 14 August 2024.*

The Board delegates the responsibility for the day-to-day management of the Company to the Managing Director, who is assisted by the senior executives who report to him. The diagram above sets out details of the senior executives reporting directly to the Managing Director as at the date of this Corporate Governance Statement.

Appointment

Appropriate background checks are conducted before a senior executive is appointed.

The terms of employment of Mr McNally and all senior executives are formalised in a written services agreement. Further details regarding the terms of employment of Mr McNally and the Group Chief Financial Officer are set out in the Remuneration Report on pages 46 to 66 of the Company's Annual Report.

Performance reviews and evaluation

To monitor senior executive performance each executive is sent an individual scorecard containing a number of financial and non-financial key performance indicators (KPIs) that are to be achieved during the year. Details of the KPIs used for Mr McNally in FY24 are set out in the FY24 Remuneration Report on page 56 of our 2024 Annual Report. The Managing Director's performance is formally assessed on an annual basis. The Managing Director's KPIs are reviewed and set annually by the Board on the basis of recommendations made by the People & Remuneration Committee at the commencement of the financial year. The People and Remuneration Committee carefully evaluates the Managing Director's performance against those KPIs and makes recommendations to the Board for final decision.

An annual assessment of the performance of all other senior executives is undertaken by the People and Remuneration Committee on the basis of recommendations by the Managing Director, who conducts performance reviews in relation to each senior executive. A performance evaluation for all senior executives, including the Managing Director, was undertaken in the Reporting Period in accordance with the process disclosed above.

5. Communication

Communication with shareholders and the market

Ramsay is committed to effective communication with its customers, shareholders, market participants, employees, suppliers, financiers, creditors, other stakeholders and the wider community.

The Board has adopted a Disclosure & Communications Policy which sets out procedures designed to ensure compliance with ASX Listing Rule and Corporations Act disclosure requirements. The Policy also sets out the role of the Disclosure Committee, which is comprised of the Managing Director and CEO, the Group CFO, the Group General Counsel and Company Secretary and the Group Head of Investor Relations, and, where possible in the circumstances, the Chair.

The Disclosure Committee is responsible for (among other things) determining whether matters within management's authority should be disclosed publicly under the Policy and for assisting employees in understanding what information may require disclosure to the market on the basis that it is price sensitive. Certain disclosure decisions (for example, relating to matters of fundamental significance to the Company) are the responsibility of the Board.

The Company Secretary is responsible for circulating copies of all material market announcements to the Board promptly after they have been made. The Policy also covers the provision of information to shareholders, the media and the wider community.

View this Policy on the Governance section of our website <https://www.ramsayhealth.com/en/about/corporate-governance/>

The Company's investor relations programme comprises the following mechanisms, which together facilitate two-way communications with shareholders and ensure that shareholders are kept fully informed and able to participate effectively at general meetings:

Financial reports, recordings of webcasts with senior executives and ASX releases are posted on the Investor Centre on our website.

Documents relating to our governance arrangements are made available in the Corporate Governance section of our website.

The Investor Centre of our website also contains a link to our share registry, recent and historical information on dividends and a calendar of key dates for the Company's results announcements, dividend payments and AGM.

Shareholders may make inquiries of the share registry manager by telephone, email or post. All security holder and investor queries must be dealt with courteously and in a timely way.

Shareholders can receive communications from, and send communications to, Ramsay and its share registry electronically. Contact details and the process for opting to receive shareholder communications electronically are set out on our website.

Participation by shareholders at the AGM is actively encouraged. For example, shareholders are encouraged to submit questions prior to the AGM, with those questions answered at the AGM. In addition, all resolutions in the Notice of Meeting are decided on a poll.

If a new and substantive presentation is to be given to investors or analysts at an open briefing, a copy of the presentation materials will be released to the ASX ahead of the presentation. Access to live webcasts of management briefings are available to all shareholders and a recording of the webcast will be posted on the Investor Centre of the Company's website following the briefing.

Verification of unaudited reports

The Audit Committee assists the Board to discharge its responsibilities on matters relating to the external reporting of financial information for the Group and is responsible for reviewing Ramsay's corporate and financial reporting and disclosure processes. This includes reviewing the process to verify the integrity of any periodic corporate report that we release to the market that is not audited or reviewed by the external auditor.

For periodic corporate reports released to the market which are not required to be audited or reviewed by our external auditor, Ramsay has a process in place to ensure the report is materially accurate and balanced in order to provide investors with appropriate information to make informed investment decisions. The process for each periodic report will vary depending on the nature of the particular report, but generally involve **confirmation** by the individuals responsible for the information that, to the best of their knowledge and belief, the information is accurate and not misleading; **review** of the report or document by the relevant internal subject matter expert(s), and in some case external advisers; and **approval** by the individual responsible for the corporate report and confirmation that it is appropriate for release.

6. Risk management

Risk management framework

The Board has established the RMC to assist with the oversight of financial and non-financial risks across the Company and its subsidiaries, internal controls and systems and processes for monitoring compliance with laws and regulations.

The Board, supported by the RMC, has responsibility for reviewing the risk management framework at least annually and satisfying itself that the risk management framework continues to be sound and that the Company is operating with due regard to the risk appetite set by the Board, supported by the RMC. This review took place in FY24.

The Annual Report contains information about Ramsay's material business risks, including Ramsay's exposure to environmental and social risks, and how those risks are managed – see pages 14 to 18. The Board and management understand the importance of meeting stakeholder expectations on social and environmental concerns and being resilient to be able to respond to a changing climate and transition to a lower carbon economy. Ramsay's Impact Report also outlines the material sustainability issues, our management approach and performance of our operations on environmental and social areas. As part of its commitment to sustainability, Ramsay commenced aligning its reporting with the recommendations of the Task Force on Climate related Financial Disclosure (TCFD) in its FY21 corporate reporting suite and continued to do so in FY22, FY23 and FY24.

Internal audit

Group Internal Audit is the Company's 3rd line assurance function that provides the Board and senior executives with an independent and objective evaluation of the adequacy and effectiveness of the Group's governance, risk management and internal controls. The Group Chief Risk Officer is responsible for Internal Audit and has a direct reporting line through to the Audit Committee through the Audit Committee Chair.

The Audit Committee is responsible for reviewing the scope and adequacy of the Group's Internal Audit program and approves the Internal Audit plan and budget annually. The Internal Audit plan is considered over a three-year rolling period and is continually reviewed to ensure alignment with the Group's key risks and strategy.

In addition, each of the Group's regions has its own Internal Audit plan, which is presented to the respective regional board/executive committee with relevant issues reported to the Audit Committee and/or RMC as part of the Group's quarterly risk reporting.

Assurance

Prior to the Board's approval of the Company's FY24 financial statements and in accordance with s295A of the *Corporations Act 2001* (Cth) and the Recommendations, the Managing Director and the Group Chief Financial Officer provided a declaration to the Board that:

- in their opinion, the Company's financial records have been properly maintained and that the financial statements and notes comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the Company;
- the consolidated entity disclosure statement required by section 295(3A) of the *Corporations Act* is true and correct as at 30 June 2024; and

- their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

A similar declaration was provided by the Managing Director and the Group Chief Financial Officer prior to the Board's approval of the Company's HY24 financial information. The Company's external auditor, Ernst & Young, will again attend the Company's 2024 AGM and be available to answer shareholder questions concerning the audit of the Company's FY24 financial statements.

7. Remuneration

The Company distinguishes the structure of Non-Executive Directors' remuneration from that of executive Directors and senior executives.

The Company's policy is to reward executives with a combination of fixed, performance-based and equity-based incentives. To drive improvements in shareholder value, a significant proportion of remuneration for the CEO and senior executives is 'at risk' based on delivery of returns to shareholders. Conversely, to preserve independence and impartiality, no element of Non-Executive Director remuneration is 'at risk' (i.e. it is not based on the performance of the Company).

Non-Executive Directors receive Board and Committee fees that are set having regard to the responsibilities and risks of the role and market competitiveness. To create alignment between the interests of Non-Executive Directors and shareholders, Non-Executive Directors are encouraged to hold shares in the Company. Many of the Non-Executive Directors have acquired shares in the Company and hold them in their own right.

The Board implemented a Minimum Shareholding Policy that took effect on 1 July 2019. This Policy supports alignment with the Company's shareholders and requires the members of the Global Executive and Non-Executive Directors to obtain and hold Ramsay Health Care shares in line with the detail below.

Position	Further detail	Timeframe to Acquire
MD & CEO	• 200% of FAR	• 5 years from time of appointment (or implementation of policy for individuals in role at 1 July 2019)
Global Executive	• 100% of FAR	
Non-Executive Directors	• 100% of base annual fees	

The Company provides Non-Executive Directors the opportunity to salary sacrifice a portion of their annual remuneration to be granted as share rights if they choose to do so. Structuring Non-Executive Director remuneration in this way has supported Non-Executive Directors in building their shareholdings in the Company and continues to enhance the alignment of interests between Non-Executive Directors and shareholders generally.

Further details about our remuneration practices and policies are set out in Ramsay's Remuneration Report on page 46 to 66 of the Annual Report.

The Securities Trading Policy prohibits hedging arrangements, dealing in derivatives or any other arrangements that vary the economic risk related to the Company's securities. This includes hedging or arrangements that have the effect of limiting the economic risk in connection with unvested securities issued under an employee or director option or share plan.

8. Diversity and inclusion

Diversity and Inclusion Policy

We are proud of the considerable diversity that exists throughout the organisation's workforce. We strive to create a culture that embraces the differences of ideas, perspectives and experiences that diversity brings in recognition of the positive impact a diverse workforce has on Ramsay's overall performance.

"The Ramsay Way" culture recognises that people – staff and doctors – are Ramsay Health Care's most important asset and this has been key to our ongoing success. As part of that, diversity and inclusion is a business imperative that assists to drive business results, enhance Ramsay's reputation and, attract, recruit, engage and retain a diverse group of talented people.

The Board has adopted a Diversity and Inclusion Policy which sets out Ramsay's expectations in relation to diversity and inclusion and applies to all Ramsay personnel globally. The Policy provides that diversity and inclusion is a business imperative that assists to drive business results, enhance Ramsay's reputation and attract, recruit, engage and retain a diverse group of talented people. The Policy requires meaningful measurable objectives to be set for achieving gender diversity in the composition of the Board, senior executives and workforce generally, as required under the Recommendations. Reporting on the progress against the measurable objectives to the People & Remuneration Committee and Board occurs at least annually. Our progress against the measurable objectives for FY24, as well as the measurable objectives set for FY25, are set out under the 'Measurable objectives' section below.

View this Policy on the Governance section of our website <https://www.ramsayhealth.com/en/about/corporate-governance/>

We also have in place comprehensive and well-developed Workplace Diversity Guidelines for employees, including diversity criteria in recruitment and selection guidelines.

In each of our geographical business units, we have in place a Flexible Work Practices Policy to promote balance of work and life responsibilities and interests, such as family and carer, study, community and cultural needs, with the aim of accommodating employees' needs for flexibility subject to meeting the operational needs of the business. This is exemplified by the fact that a significant number of our employees are part time with child and/or elderly care and other responsibilities and desire to obtain effective work life balance in order to maintain and progress their careers.

Supplier diversity

As outlined above, during the Reporting Period, Ramsay adopted a Global Responsible Sourcing Policy which contains a commitment that Ramsay will seek to create diverse supplier relationships and collaborate in targeted industry partnerships to influence and support positive change in our global supply chain.

Where permitted by procurement requirements and criteria, Ramsay will take a proactive approach to creating diverse supplier relationships that are mutually beneficial and foster stronger communities. The aim for supplier diversity in our procurement and sourcing activities is to provide opportunities for suppliers that are indigenous owned, social enterprises, disability enterprises, women-owned (among others) to participate in relevant competitive market tenders.

Female representation at Ramsay

We are proud of the strong representation of women throughout the organisation. In FY24 women comprised around 79% of employees in each of the Company's operations in Australia, Europe and the United Kingdom. As at 30 June 2024, women occupied 45% of senior executive¹ positions and approximately 50% of the Group's senior management² positions.

¹ 'senior executive' positions are those reporting directly to (and including) Craig McNally, Managing Director and CEO, as at 30 June 2024.

² 'senior management' positions are those positions reporting to (and including) Craig McNally, Managing Director and CEO, and each of their direct reports, as at 30 June 2024.

These figures do not reflect the level of female management representation in our hospital facilities, which is generally high. For example, women represent approximately 58% of facility CEOs and over 70% of facility and corporate managers³.

Leadership programs are designed to support and prepare employees for their first move into supervisory roles through their progression to senior management and executive positions. The diversity profile of applicants and successful candidates is assessed to ensure that such leadership programs are broadly reflective of our workforce.

The Company has four female Board members, which accounts for 44% of Board members (50% of Non-Executive directors). The Board is conscious of the importance of female representation on the Board, particularly in light of the fact that women represent a substantial proportion of the Group's overall workforce, clinicians and patients.

* 'senior executive' positions are those reporting directly to (and including) the Managing Director and CEO, as at 30 June 2024.

** 'senior management' positions are those positions reporting to (and including) the Managing Director and CEO, and each of their direct reports, as at 30 June 2024.

Measurable objectives

The Diversity and Inclusion Policy requires meaningful measurable objectives for achieving gender diversity to be set annually in the composition of the Board, senior executives and workforce generally. The FY24 gender diversity of the Group's general employee workforce will be outlined in the Impact Report, which will be released later this year. For FY23, women represented approximately 79% of the workforce generally. Given this proportion, the measurable objectives approved by the Board are targeted at maintaining gender diversity across the most senior levels of our organisation.

The Board, supported by the People and Remuneration Committee, is responsible for approving these measurable objectives and assessing our progress in achieving those objectives.

Updates on the Company's progress against its objectives during FY24 are set out in the table below.

Ongoing measurable objective	Progress in FY24
Maintain a gender balance at the Board level so that the Board is comprised of 40 per cent female, 40 percent male and 20 percent of either gender.	As at the end of FY24, the Company's female Board members account for 44% of all Board members and 50% of Non-Executive Directors.

³ Excluding Nordics.

Ongoing measurable objective	Progress in FY24
Maintain gender balance at the senior executive ⁴ level (in accordance with the 40:40:20 principle).	As at the end of the FY24, Senior Executive positions comprised 45% women.
Maintain gender balance in senior management ⁵ roles.	As at the end of FY24, approximately 50% of the Group's senior management positions were held by women (47% in FY23). During FY24, Ramsay continued to build on its work seeking out opportunities for high calibre female leaders in senior management positions.
Maintain gender balance in facility CEO roles.	As at the end of FY24, Facility CEO roles were held by 58% women and 42% men.

These objectives, targeted at maintaining gender diversity across the most senior levels of our organisation, will continue through FY25.

Ramsay is committed to an inclusive culture, and to providing career development, professional training and experience that supports the career and progression of all of our people. In particular, our Executive Leadership Programme and internal mentoring programme continues to support diversity in our succession pools and progress against our objectives.

In relation to the Australian business, each year the Company reports gender equality indicators in accordance with the *Workplace Gender Equality Act 2012* (Cth) and our latest report for FY24 can be found in the 'Reports and scorecards' section of our website at <https://www.ramsayhealth.com/en/sustainability/reports-and-policies/>. Ramsay UK also publishes an annual Gender Pay Report in accordance with UK legislative requirements. The latest Report is available at www.ramsayhealth.co.uk/legal-and-regulatory.

⁴ 'senior executive' positions are those reporting directly to (and including) Craig McNally, Managing Director and CEO, as at 30 June 2024.

⁵ 'senior management' positions are those positions reporting to (and including) Craig McNally, Managing Director and CEO, and each of their direct reports, as at 30 June 2024.

¹ "Corporate governance statement" is defined in Listing Rule 19.12 to mean the statement referred to in Listing Rule 4.10.3 which discloses the extent to which an entity has followed the recommendations set by the ASX Corporate Governance Council during a particular reporting period.

Listing Rule 4.10.3 requires an entity that is included in the official list as an ASX Listing to include in its annual report either a corporate governance statement that meets the requirements of that rule or the URL of the page on its website where such a statement is located. The corporate governance statement must disclose the extent to which the entity has followed the recommendations set by the ASX Corporate Governance Council during the reporting period. If the entity has not followed a recommendation for any part of the reporting period, its corporate governance statement must separately identify that recommendation and the period during which it was not followed and state its reasons for not following the recommendation and what (if any) alternative governance practices it adopted in lieu of the recommendation during that period.

Under Listing Rule 4.7.4, if an entity chooses to include its corporate governance statement on its website rather than in its annual report, it must lodge a copy of the corporate governance statement with ASX at the same time as it lodges its annual report with ASX. The corporate governance statement must be current as at the effective date specified in that statement for the purposes of Listing Rule 4.10.3.

Under Listing Rule 4.7.3, an entity must also lodge with ASX a completed Appendix 4G at the same time as it lodges its annual report with ASX. The Appendix 4G serves a dual purpose. It acts as a key designed to assist readers to locate the governance disclosures made by a listed entity under Listing Rule 4.10.3 and under the ASX Corporate Governance Council's recommendations. It also acts as a verification tool for listed entities to confirm that they have met the disclosure requirements of Listing Rule 4.10.3.

The Appendix 4G is not a substitute for, and is not to be confused with, the entity's corporate governance statement. They serve different purposes and an entity must produce each of them separately.

² Tick whichever option is correct and then complete the page number(s) of the annual report, or the URL of the web page, where your corporate governance statement can be found. You can, if you wish, delete the option which is not applicable.

³ Throughout this form, where you are given two or more options to select, you can, if you wish, delete any option which is not applicable and just retain the option that is applicable.
